What is **Viafirma Mobile Suite**?

Adapting to market needs and to the fact that more and more users interact with information systems through mobile devices, comes the Mobile Suite of Viafirma, set of clients and mobile platforms for our products, available at the most extended platforms: iPhone, iPhone, Android, BlackBerry and Windows Phone.

A new feature compared to other platforms is that any Viafirma Suite application user can perform authentication and advanced electronic signature with his mobile device, where operations are made by installing a digital certificate software on the phone or tablet.

Therefore Viafirma Mobile has become a mobile-signature worldwide reference. Go to our youtube channel to view videos related to Viafirma Mobile: www.youtube.com/viafirma.
